

About us...

Valley Hospice Foundation is a registered charity dedicated to Hospice Palliative Care in the Annapolis Valley.

Our current focus is the establishment of our Valley's new Hospice residence, now under construction in Kentville, NS.

The Hospice will provide compassionate end-of-life care to terminally ill patients and their families.

Beyond the building there are dedicated doctors, nurses, support staff, and volunteers who make up our Annapolis Valley Palliative Care Team. They provide support and care to people living with life limiting illnesses across all care settings and they will be there if and when it is time to enter the Hospice.

This year the funds raised during our Hike will be directed towards enhancing the private patios attached to the 10 bedrooms at the new Hospice with comfortable furnishings, planters and a design to nurture the well-being of those using the Hospice.
